

There are few things as enjoyable or relaxing as a beautifully designed aquarium at home or in the office. A planted aquarium with its soothing colors and gentle movement is the perfect antidote to our modern stressful lives

Riverscape Aquarium offers a full freshwater aquarium set up and maintenance service for businesses and private residences.

## Who We Are

### About Us

Riverscape Aquarium is a dedicated aquarium store located in Moncton, New Brunswick. We specialize in freshwater tropical species and aquarium plants. In addition to a full retail service, we offer residential & commercial set-ups; tank maintenance; and in store workshops.

## Our Services

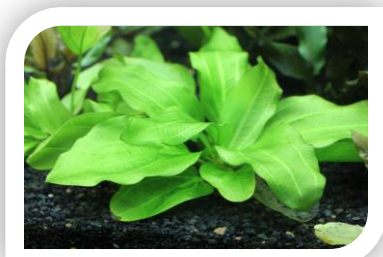

### Aquarium Design

We will help you select the best options for your freshwater aquarium. Whether you have a design in mind or need some inspiration, Riverscape Aquarium will take you through step by step to ensure you get the aquarium you want. We will look at the available equipment; aquarium design styles; planting and décor layout; and fish stocking suggestions. We will also advise on the numbers of fish and plants you will need. If you are looking for unusual fish and plants, we will try and source them for you. If you have an existing aquarium and would like to change the set up, we can also help.

---

*“Worried about what to do with your fish when you are on vacation? We can arrange to care for your fish and maintain your aquarium while you are away!”*

---

### Aquarium Set-Up

When you use Riverscape Aquarium you can be confident of a professional aquarium set-up. Our aquarium installation package includes designing the aquarium layout; set-up of the tank, filtration & other components; décor and planting; and filling the tank. Once your aquarium is set up, we will remove all packing materials; inspect the system fully; and give you a tutorial on your aquarium. We will also give you printed instructions for future reference.

---

*“We make a FREE site visit to discuss your requirements.”*

---

### Aquarium Maintenance

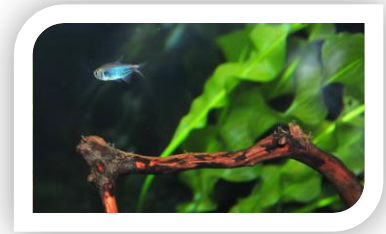

A regular cleaning, maintenance and testing regime is vital to the health of your fish and plants and the appearance of your aquarium.

Once your aquarium is set up, we can provide a maintenance program to suit your needs. We offer weekly, biweekly and monthly maintenance for businesses and private individuals at a time to suit you. Select from one of our Maintenance Options.

---

*“We gradually build up fish stock levels over several weeks to give the filter system time to mature”*

---
